There is some force in the Senior Surgeon's suggestion that the scholarships should be given to new entrants and not to those who are already studying in the college. There are better candidates in the list than Mr. B. G. Sambasivam judging from their educational qualifications especially the last Mr. H. V. Sir,

Please send this to the Director

I beg to approach with this representation of mine for your generous consideration.

I am a student in the III year MB+BS course of the Madras Medical college. After passing the Intermediate Examination in Arts of the Madras University from the Central college Bangalore, I with an ardent desire to follow the footsteps of my father, a sub. assistant Surgeon in Mysore service took up this line and joined the Medical college under the protection of the Government of His Highness the Maharaja of Mysore. I was granted a scholarship of Rs 25/ per mensum which I drew for the last two years. I tried to deserve the encouragement so kindly shown to me by the Government and have passed the first and the second MB+BS Examinations. The Principal of this college has kindly recomended for the continuance of the scholarship. On joining the college and on executing the covenent to serve the Government after taking the degree, I believed that the scholarship would be continued for the full course; but to my surprise I am informed

that my scholarship has to be sanctioned by Government every year and that such sanction depended on the existence of vacancies in the number of scholarships. As it is not possible to expect vacancies every year since graduates have the full sway I appeal to you through this for a favourable consideration of my case.

With reference to the two scholarships that are sanctioned by Government every year and advertised this year I apply myself as a candidate for one of the vacancies seeing that no graduates have applied for the same this year and that to extreme difficulty to which I will be exposed in case of failure to get a scholarship especially at a stage like this of my collegiate career. I depend entirely on the help of the Government for the reason that my father who is poor can not afford to maintain me here with four other sons whom he is educating. I need hardly say any more about my helpless condition in case of withdrawl of the support of the Govt. and I sincerely trust that something will be done to ameliorate my wretched state for which act of generosity I shall ever pray for your long life and prosperity.

I beg to remain,
